

PUPPY GUARANTEE & PRICES

Our puppies are pampered right up until the time they leave our home. All of our puppies are wormed regularly and receive their first round of vaccinations before leaving our kennel. The puppies are kept on a nutritious diet from the time the weaning process begins until the time they leave our home. We recommend PawTree dog food.

Guarantee:

Wildfire K9's offers a full replacement guarantee against genetic defects in our puppies for one year. We also believe nutrition makes a huge difference in the quality & longevity of life of your puppy. If you feed PawTree to your puppy we will extend our guarantee to 2 years. If a positive diagnosis (by a licensed veterinarian) of a genetic defect is made for your puppy, we will replace the puppy with a puppy of equal value and of the same sex as soon as one becomes available. Within 7 days from the date you received the puppy, we request that you have the puppy(s) examined by a licensed veterinarian to ensure its good health. If he/she has a life-threatening defect, you may return the puppy (with a written document from the veterinarian stating the problem) and another puppy will be given to you. We do not require our families to buy a special vitamin for the next two years but we highly recommend feeding a high quality dog food. PawTree is one of the best.
